Southeast Michigan Council of Governments

BACKGROUND

Developed through a consensus process, the Southeast Michigan RCTO envisions reliable and managed transportation operations across jurisdictional, geographic, and modal boundaries for both routine traffic operations and traffic incident management that saves lives, time, and money for its travelers.

OBJECTIVE

To provide transportation operations stakeholders a forum for networking and learning the status of implementing Southeast Michigan's Regional Concept for Transportation Operations (RCTO).

LEARN ABOUT

The National Unified Goal (NUG) for traffic incident management

New ways to provide prompt, reliable traffic information about the daily commute

MDOT's freeway video cameras and how to gain access

Local policies for safe, quick clearance of freeway incidents

Status of regularly re-timing Southeast Michigan's traffic signals

WHO SHOULD ATTEND?

State and local planners, engineers, consultants, policy makers, and first responders (police, fire, emergency management personnel, and dispatchers)

PRESENTERS

Peter Sweatman, President, Intelligent Transportation Society of Michigan and President, University of Michigan Transportation Research Institute

Captain Bob Clark, Commander, Second District Headquarters, Michigan State Police

Jackie Paige, Fox 2 News Traffic Authority

Sarah Gill, Transportation Planner, URS/MDOT

Matthew Smith, Metro Region Traffic and Safety Engineer, MDOT

Chief Charles Craft, City of Troy Police Department
